## **Employee Policy**

In accordance with the Drug-Free Workplace Act of 1988, Oklahoma State University hereby notifies all employees that the unlawful manufacture, distribution, dispensation, possession or use of a controlled substance is prohibited in the workplace. Any employee found to have violated this prohibition may be subject to disciplinary action up to and including dismissal or be required to satisfactorily participate in a drug abuse assistance or rehabilitation program as a condition of continued employment. The drug abuse assistance/rehabilitation program shall be one that has been previously approved for such purposes by a federal, state, or local health, law enforcement or other appropriate agency. The imposition of such disciplinary action or requirement to satisfactorily participate in a drug abuse assistance/rehabilitation program is premised solely upon a violation of this prohibition and does not require a criminal conviction. As a condition of employment at Oklahoma State University, all employees will:

1. Comply with the terms of this statement; and
2. Notify the University (through either their immediate supervisor, other supervisory administrator or project director) of any criminal drug statute conviction for a violation occurring in the workplace in writing no later than five days after such conviction.

Such conviction may, of course, result in the employee being disciplined or required to satisfactorily participate in a drug abuse assistance/rehabilitation program as 1-1205.5 specified above. Failure of an employee to report his/her conviction, as required herein, constitutes grounds for dismissal. As a further requirement of the Drug-Free Workplace Act, the University has established a drug-free awareness program for the purpose of informing employees about the dangers of drug abuse in the workplace, the University's prohibition of controlled substances in and on OSU property, any available drug counseling, rehabilitation and employee assistance programs, and the penalties that may be imposed for drug abuse violations. An Employee Assistance Program has been created in furtherance of the drug-free awareness program. Information about the drug-free awareness program and the Employee Assistance Program may be obtained from University Counseling Services. Reference is made to Policy and Procedures Letter 1-1205 and the Drug-Free Workplace Act of 1988 as sources of information and clarification.

## **Tailgating Policy**

Any OSU fraternity or sorority who wishes to participate in pre-sporting social events (tailgating) that are not contracted by Oklahoma State University Sponsored partners, must fully register and comply with OSU, Fraternity & Sorority Affairs, IFC, and any (inter) national regulations. All events must adhere to OSU Athletics tailgating policy. In addition, no organization can provide a common source of alcohol and must adhere to the Student Organization BYOB Alcohol Policy (with some exceptions).

## Accountability Procedures

### Student Conduct Process

The responsibility for the campus student conduct system is delegated from the Board of Regents for Oklahoma State University to the Vice President for Student Affairs through the President. The Vice President for Student Affairs further delegates authority for student conduct to Student Support and Conduct, Housing and Residential Life, and designated conduct officers. The goal is to resolve cases by the lowest appropriate authority for maximum educational benefit. To attain this goal, the University utilizes three types of conduct procedures to appropriately address alleged violations of the student code of conduct.

- **Meeting:** Upon determining that sufficient evidence exists to believe that a violation of the Student Code of Conduct may have occurred, the Director of Student Support and Conduct, or another conduct officer with jurisdiction, will notify the student in writing of the alleged violations against them.
- **Hearing:** Hearing procedures are provided for allegations against an individual where suspension from the university is possible, if found responsible. Cases of suspension and expulsion are only processed through Student Support and Conduct.
- **Committee Hearing:** Hearing procedures are provided for allegations against a student where suspension or expulsion from the university is possible, if they are found responsible.
  - The Student Conduct Committee Panel Hearing shall consist of three disinterested members — one faculty member, one student member and one staff member — selected from the Student Conduct Committee.

### Possible Student Disciplinary Sanctions

The following sanctions listed are potential sanctions that students could be assigned if they are found responsible for alcohol or other drug violations. These sanctions are all listed below. The office also has the right to add appropriate sanctions

**Alcohol and Drug Assessments:** Oklahoma State University offers students the ability to take Alcohol and Drug Assessments from licensed professionals in our Alcohol and Substance Abuse Center located in University Counseling Services. Depending on the severity of the violation, students may be sanctioned to a complete an Alcohol and Drug Assessment. Upon completion of this assessment, any recommendations from the counselor will become the student's new sanctions. Below are the three types of Alcohol and Drug Assessments assigned.

- **Alcohol and Drug Assessment A:** \$160 ADSAC/DUI assessment for DUI or drug-related offenses that results in loss of driver's license. This appointment takes 2 hours.
- **Alcohol and Drug Assessment B:** \$ 100 Court-ordered drug/alcohol assessment for criminal charges that will not result in loss of driver's license (PI, UIP, fake ID, TOC). This appointment takes an hour and a half.
- **Alcohol and Drug Assessment C:** \$50 Non-court ordered University Assessment – Not accepted in court. This appointment takes an hour.

**Conduct Expulsion:** Termination of student status for an indefinite period. Students who are expelled from Oklahoma State University are not permitted on campus or in university buildings, facilities or activities at any time for any reason, unless otherwise permitted by the Director of Student Support and Conduct. Notation on the transcript is not made; however, a permanent record

of the action is maintained in the student's record in the Registrar's Office. If a transcript is requested, a letter will be sent with the transcript to the requesting party/institution stating the student has been expelled for conduct reasons. Only unofficial transcripts will be released to the student directly. Expulsion becomes a permanent part of a student's conduct record. Any refund of tuition or fees will be subject to the university's normal withdrawal policy.

**Conduct Probation:** A specified period (of time) during which the student is placed on formal notice that they are not in good standing with the university and that further violations of university regulations will subject them to suspension or expulsion from the university.

**Conduct Suspension:** The exclusion from enrollment in classes and other privileges or activities for a definite period of time not to exceed three years and until the conditions which are set forth in the hearing outcome letter are met. Students who are suspended from Oklahoma State University are not permitted on campus or in university buildings, facilities or activities at any time for any reason during the period of suspension, unless otherwise permitted by the Director of Student Support and Conduct. Notation on the transcript is not made; however, a record of the action is maintained in the student's record in the Registrar's Office. If a transcript is requested during the period of suspension, a letter will be sent with the transcript to the requesting party/institution stating the student is under suspension for conduct reasons. Only unofficial transcripts will be released to the student directly. Any refund of tuition or fees will be subject to the university's normal withdrawal policy.

**Football Sobriety Check-in:** Students that are found to be responsible for alcohol violations relating to home football games, are assigned this sanction. They are required to be sober at all times while in the stadium for any future home football games they go to for the remainder of the season.

**Game Day/Post Game Day Community Service:** Students that are found to be responsible for alcohol or other drug violations relating to home football games, are assigned this sanction. Upon completion of Game Day or Post Game Day Community Service, a student will be able to:

1. Identify the impact that home football games have on the University and their involvement and role in that impact.
2. Define their responsibilities as an OSU student and identify how these responsibilities will factor into their future decision making on game day and in general at the University.

**Marijuana Education Class:** Through the completion of the Marijuana Education Class a student will be able to:

1. Develop strategies for reducing the risks associated with marijuana use.
2. Understand the federal, state, and local laws surrounding marijuana.
3. Explore the impact marijuana may have on success at Oklahoma State University now and in the future.

**Parental Notification:** Oklahoma State University reserves the right to notify the parents/guardians of dependent students regarding any conduct situation, particularly alcohol and other drug violations. The university may also notify parents/guardians of non-dependent students

who are under the age of 21 of alcohol and/or other drug violations. Parental notification may also be utilized discretionarily by administrators when permitted by FERPA or consent of the student.

**Residence Hall Status Change:** The university is able to alter a student's access to residence halls in four ways:

1. **Restrictions** on visitation to specified buildings or all university housing.
2. **Reassignment** to another university housing facility as determined by Residential Life staff.
3. **Suspension** from a university housing facility for a specified period of time, after which the student is eligible to return. Conditions for returning may be specified.
4. **Removal** from living in or visiting any university housing facility.
5. **Restitution:** Is compensation for the damage caused to the university or any person's property on campus. This is not a fine, but rather a repayment for labor costs and/or value of property destroyed, damaged, consumed, or stolen.

**S.M.A.R.T. Education Class:** Through the completion of the SMART Class a student will be able to:

1. Develop strategies for reducing the risks associated with alcohol consumption
2. Understand federal, state, and local laws surrounding alcohol
3. Recognize the hindrance that your behavior involving alcohol can have on your success at OSU and in the future

**Written Warning:** An official written notice that the student has violated university policies and that more severe conduct action will result should the student be involved in other violations while the student is enrolled at the university.

*Please Note: While these are the sanctions that are often assigned for alcohol and other drug violations, the Student Conduct office reserves the right to issue additional sanctions to fit the educational needs of students on a case-by-case basis.*

## Annual Policy Notification Process

OSU issues the annual disclosure to all employees and students through a variety of methods:

- University Handbooks
- New employee packet
- Annual Notification with Clery Act
- Email sent to students and employees

## Reflections on Previous Recommendations

The following recommendations were considered from the previous Biennial report.

- Consider what alcohol consumption looks like post COVID-19
- Develop short videos on alcohol awareness and consistent PowerPoint slides to be used in campus presentations
- Implement Sober Monitor Training for all fraternity and sororities
- Joining quarterly with Payne County Healthy Living Coalition
- Expand the Payne County Substance Abuse and Mental Health Coalition to community agencies
- Establish parent education initiatives
- Increase communication about the good Samaritan policy

## Summary and Recommendations for the Future

Progress has been made towards each of these recommendations. However, additional effort could be made so they will be considered as useful recommendations for the future.

- Establish a committee of relevant partners to meet monthly to contribute to preparation of the next Biennial report.
- Based upon outcome data, consider how underutilized conduct sanctions can be utilized more effectively or revised.
- Develop a survey, distributed electronically, to gauge the types of programming that the current student population at Oklahoma State would be receptive to.
